wise and
otherwise**

P. R. MILNES

The opinions expressed in this column are the personal views of the writer and do not necessarily reflect those of the management. In fact, many times they do not.

**THINKERS AND
TALKERS COMPARED**

"Out of 130,000,000 people in this country," observes Judge Summers of the Buffalo city court, "we have only about 250,000 thinkers. The others are talkers."

It does not appear how the judge arrived at his conclusion as to the number of thinkers in this nation. Nor is it plain as to what he thinks over the characteristics of a thinker or as to what he feels constitutes thinking.

Perhaps Judge Summers will feel inclined to elucidate this phase of the subject. It is pretty important. Most persons are somewhat hazy about the matter, but occasionally there does creep into consciousness a fear that a lot of our thinkers do not think straight and a lot more of them fail to think through to the end. And it is not unlikely that not a few thinkers only think they think.

But it is rather difficult to set up a yardstick by which thinking and thinkers can be measured satisfactorily. Most of us, however, settle that matter for ourselves by accepting the fellow who agrees with us as a sound thinker, rejecting all others.

**Two Named To
Assist Veterans
In Getting Bonus**

Two members of Honor Post, Veterans of Foreign Wars have been assigned to assist members of the organization in obtaining their bonus bonds when distribution of the money is started on June 15 at the local postoffice.

At last night's meeting of the post, Sam Ripley and Sam Homes, two prominent members of the group were named to act as identification witnesses for the members. All veterans receiving their bonus must be identified.

Final instructions were given to the delegates who will attend the San Bernardino convention to be held in the near future. As commander C. O. Davis will be unable to attend the convocation, Vice-Commander Walter Zurigen was named as head of the delegation.

Members will form a fish and game club with Harry Hunt as chairman of the organization. John Mayers and W. MacClintock served refreshments at conclusion of the meeting.

**Youth Slightly
Injured When
Hit By Machine**

Gerald Hern, 7, of 517 1-2 Twelfth street, sustained slight injuries when he was struck down by a car on Twenty-third street near Downer avenue yesterday, according to police reports.

Investigating officers said that young Hern ran into the path of a machine driven by Mrs. Bertha M. Pegorini of 722 Chanslor avenue.

The youth was taken to the Richmond Cottage hospital where he was treated for slight cuts and bruises by Dr. U. S. Abbott.

**Elks Lodge To
Have Flag Day
Program Tuesday**

Initiation of candidates was held last evening by the Richmond Lodge of Elks at a meeting held at the clubrooms. Robert Collins, the exalted ruler, presided.

Next Tuesday night the lodge will sponsor a Flag Day parade and exercises at the Memorial park. Governor Frank F. Merriam will be the speaker.

Plans are being discussed for the picnic to be held at East Shore park on June 14. Charles Drake heads the committee in charge.

THE WEATHER

BAY REGION—Partly cloudy and at times unsettled with showers to-day; Thursday partly cloudy; moderate temperature; moderate south and southwest winds.

MOB ATTACKS EX-FILM STAR

**HAINES AND
PAL DRIVEN
FROM HOME**

HOLLYWOOD, June 2.—UP Detectives tonight were tracking down two sides of a mysterious assault on William Haines former film star, and a companion, by a mob of 30 men who peppered them with ripe tomatoes and drove them from their Hollywood beach home Sunday night.

The mob supposedly invaded Haines' home on the report of a six year old boy, Jimmy Walker, son of an El Porto farmer, who made informal charges against Haines' room-mate, James Shields.

MET BY 100 Haines and Shields returned to their home Sunday night and were met by a mob of angry citizens, apparently gathered as a "vigilante" group on the report of young Walker that Shields had allegedly made advances to him.

Haines declared his belief in Shields' innocence when police questioned him today.

ATTACK CONFIRMED A near-by garage owner, Walter Bronte, confirmed the report of the mob's attack on Haines and his companion. He said they drove the two from their home and ordered them "not to come back."

Haines insisted that the mob was a group of drunken marauders and said it had descended on a house occupied by three men previously and driven them off. Names of these were not disclosed.

**Church Plans
Discussed At
Committee Meet**

Details of the reconstruction of the First Presbyterian church were discussed last night when the building committee of the church met with Charles F. Maury, the architect.

It is expected that plans for the building will be completed soon in order that bids may be called and opened before August 15. The plans should be ready within two weeks. The finance committee will make a report at the meeting next Tuesday night.

**Two Clippers
Are Moored At
Alameda Port**

ALAMEDA, June 2.—UP—The Philippine Clipper and the China Clipper were moored at their Pan American Airways operation base here today while the Hawaiian Clipper prepared to resume its flight to Manila from Honolulu.

The Hawaiian Clipper landed in Honolulu this morning and probably will take off early tomorrow, company officials said. The Philippine Clipper completed a round trip across the Pacific, arriving here at 11:06 P. M. T. The China Clipper is scheduled to take off for Honolulu and Manila June 10.

**Violence Is Feared
In Alabama Strike**

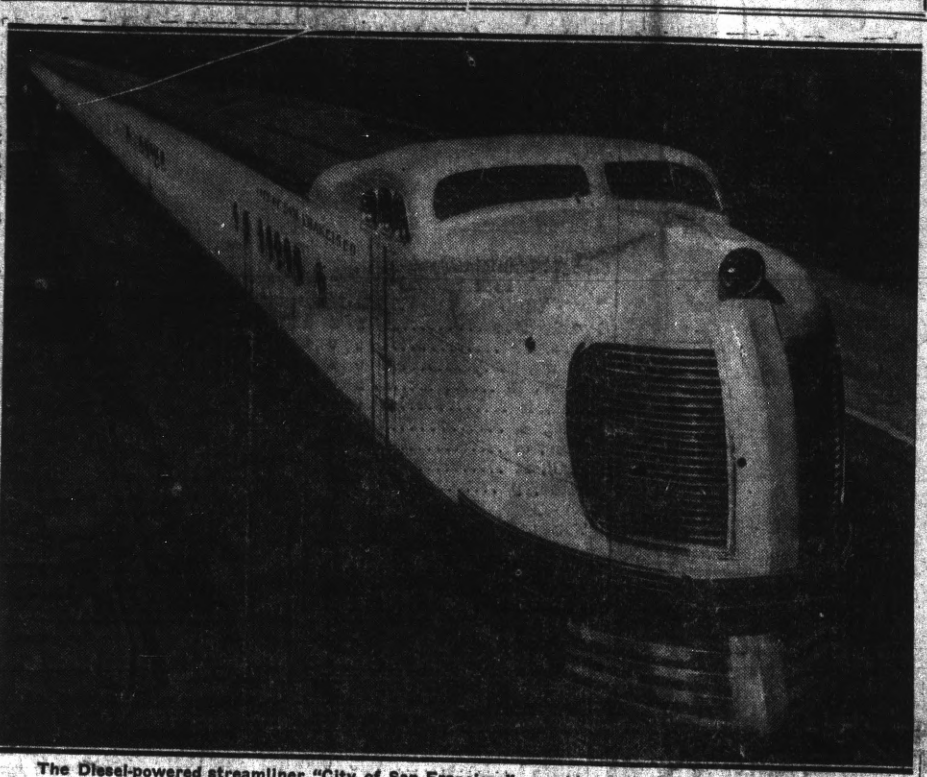

BESSEMER, Ala., June 2.—UP—Snipers hidden behind rocks trained rifles on pit heads of the Tennessee Coal, Iron and Railroad Company tonight as a strike of 2000 union miners continued.

Ushered in by gunfire Sunday night, the strike seemed destined to be marked by violence. With 11 men already in hospitals, eight of them with gunshot wounds, special deputies were rushed to pit heads from Birmingham and Bessemer.

Three company guards were wounded, a bomb was exploded and a car fired on by ambushers early today.

Townsend Pension Hearing Quizz Ended

New Wonder Train Arrives

The Diesel-powered streamliner "City of San Francisco", capable of speeds in excess of 100 miles an hour, to be placed in service by Southern Pacific, about June 14, between San Francisco and Chicago. Operating on a schedule of 39 1/2 hours, the new streamliner will cut approximately 19 hours from the fastest time now made on that run. Only one day and two nights will be required for the trip. The train has eleven cars and is powered by two 10-cylinder V-type Diesel engines, each of 1200 horsepower, which generate electricity for the eight driving motors. There are four Pullman sleepers, two coaches, a dining-lounge car, kitchen-dormitory-baggage car and mail-baggage-express car. A total of 170 passengers steam train of the same number of cars.

**100 Mile An Hour Speed
Marvel In Successful Trip**

(By P. R. MILNES)

Traveling on a railroad train at 100 miles an hour! That is the story I am going to tell and stick with it.

It involves no mental strain to recall that when traveling on a train at 30 miles an hour the thought was impinged on one's consciousness that you were going like "well, anyway rather fast."

Neither need one be a Methuselah to remember when in the early days of the gasoline buggies horses reared and snorted, cows bellowed, chickens squawked and the populace gazed in open-eyed astonishment as we went whizzing by at 15 miles per hour.

CHANGES COME There has been wonderful improvement in speed and comfort of trains since those days. Trains gradually cut down their running time until the established speed rose gradually up to 40, then 50, then 60 miles an hour and we reached the conclusion that the ultimate in that direction had been attained.

Then came the airship, at first clumsy and slow, but developing at a rate that made other modes of transportation look to their laurels.

Even steamships began to tune up their engines, following an insistent demand from the travelling public, until only two days ago, the fastest boat afloat, and incidentally the largest, the Queen Mary, majestically steamed into New York harbor, after a time-anthillating voyage from England.

CHALLENGE ANSWERED The complaint has often been voiced that the railroads have been the one branch of transportation that has failed to keep step with modern progress. That criticism is adequately and successfully answered by the train on which I rode yesterday from Sacramento. Did I say ride?

There should be a better and more descriptive word for that journey, for it was more like flying. Speeding along at 100 miles an hour.

**SPCA Officers
Are Re-Elected
At Annual Meet**

Hutt Brown was re-elected president of the SPCA at a meeting held yesterday at the home of Isaac Lester, 218 Sixth street.

**Three Troops Of
Scouts Pass Tests**

Appearing before a special meeting of the Troop Organization committee at the City Hall last evening, three Boy Scout Troops passed their charter requirements and will receive their charters in the near future.

**Mrs. Alice Schulz
In Divorce Plea**

MARTINEZ, June 2—Claiming that her husband told her he was unhappily married and wanted to get away from her and be completely by himself, Mrs. Deryl Alice Schulz filed suit for divorce in superior court here today against William E. Schulz, charging cruelty.

**REBELS ARE
IN CONTROL
OF COUNTRY**

MANAGUA, Nicaragua, June 2.—UP—President Juan B. Sacasa today ordered surrender to rebellious national guardsmen of Fort Acoasaco at Leon, but he continued to hold the presidential palace atop Tiscapa Hill against guard forces surrounding it.

The fort, defended by 1500 men under Major Ramon Sacasa, capitulated to the rebels, led by General Anastasio Somoza, chief of the national guard, after a three day siege. Its surrender consolidated Somoza's control of the country and left the president exercising authority only over the national palace.

SEEK PEACE The president's action in ordering surrender of the fort followed negotiations begun by foreign diplomatic representatives here to end the civil war and avert further bloodshed. The agreement, handed to newspapermen by Dr. Cesar Virgilio Miranda, minister of Salvador, follows:

"The president of the republic, at the initiative of the dean of the diplomatic corps and in order to avoid further victims which might result, would not find it inconvenient to order surrender of Fort Acoasaco under the following conditions:

CEASE FIRING "First. All firing to cease immediately.
"Second. The fort defenders, including its commander, officers and soldiers, to be allowed honorably to go out with their lives and liberty respected.
"Three. All offensive activities

**Alpha Masonic
Lodge Addressed
By Utility Chief**

John H. Kimball, secretary of the Eastbay Utility District was the speaker last evening when Alpha Masonic Lodge held its meeting at the Masonic hall.

A stated business meeting was held with Dr. W. F. Fraser presiding.

Next Tuesday night the first degree will be conferred at the meeting of the lodge.

The DeMolay Chapter will be guests at the June 11 meeting. Officers for the Chapter will be installed.

Officers of Pyramid Lodge of San Francisco will confer the third degree at the June 23 meeting. A smoker will be held on June 30 and a dinner meeting will be held July 7.

**Bus Service To
Marin Planned**

SAN FRANCISCO, June 2.—UP—Hearing on the application of the Golden Gate Bridge District for authority to operate bus service between San Francisco and Marin county over the Golden Gate bridge was postponed by the State Railroad Commission today until August 15 at the request of bridge officials.

George Harlan, attorney for the bridge district, told the commission a consulting engineer had been engaged to make a complete survey of traffic in the area to be served and that it would be impossible to present facts until his report was complete, sometime in August.

**Republicans
Gathering At
Cleveland For
Convention**

CLEVELAND, June 2.—UP—Republican party leaders gathered tonight for their national nominating convention planned to bid directly for conservative Democratic support in their campaign year effort to oust the New Deal from the White House.

All factions of the G. O. P. are agreed upon that strategy. An influential G. O. P. group moved further today with proposals that the Republicans nominate a conservative Democrat for Vice-President.

TO BE PRESENTED Party leaders are divided on that question but the United Press learned that it probably would be presented to the convention in some form. The Republican New York Herald Tribune proposed second stage nomination of a Democrat to day in an editorial suggesting four "nominal members" of President Roosevelt's party for that honor.

Chairman Henry F. Fletcher announced that the national committee on arrangements decided today to invite former President Herbert Hoover to address the convention.

TO BE INVITED "I don't know when Mr. Hoover can arrange to be here," Fletcher said, "but his telegram I received in Washington said he would try to be here on the second day." Fletcher said that the invitation is not subject to approval by the convention itself because "we are

**Special Venire
Is Ordered In
Dog Track Case**

MARTINEZ, June 2—With the prospect of exhausting the venire of 60 without securing a jury to try the dog track case, an order was made this afternoon for a special venire of 30 to appear in Judge Thomas D. Johnston's court tomorrow.

When court adjourned this afternoon approximately 40 of the panel of 60 had been examined without the necessary 12 being secured to pass on the case.

Veniremen are being closely examined by the defense as to their views on gambling, particularly as to distinction between race horse and dog gambling the first of which has been legalized by act of legislature. Thomas M. Carlson of Richmond is associated with Leo Sullivan of Oakland for the defense in the retrial of the case. District Attorney Healey as in previous hearings is being assisted by his deputy, Gordon Turner.

A jury in the first trial was discharged three weeks ago when it disagreed 7 to 5, with the majority standing for conviction. Healey intends to present, as in the first trial, testimony of persons who bought tickets on options and claim they received payments.

The five men on trial are R. F. Bookins and R. Williams, money room workers; J. R. Hayes, collector; F. A. Wright, cashier, and James Marsala, option seller.

Twenty-two persons were arrested originally in a track raid December 18, 1935, but charges against all but five were dismissed.

**Divorce Granted
To Mary Gilmore**

MARTINEZ, June 2—On grounds of cruelty, Mrs. Mary Gilmore was granted an interlocutory decree of divorce from Homer Gilmore by Superior Judge Thomas D. Johnston. She also was given \$30 monthly alimony.

**MARGETT IS
SCORED IN
AFFIDAVITS**

WASHINGTON, June 2.—UP—The House committee investigating the Townsend Old Age Pension Plan today spread on its record affidavits picturing Edward J. Margett, California State area manager, as a "chisler" of organization funds.

The testimony virtually ended the \$50,000 inquiry. Hearings were recessed subject to the call of Chairman C. Jasper Bell, D. Mo.

The committee issued a subpoena for Margett, but the United States marshal at San Francisco notified Bell that he could not find the Townsendite, who apparently was evading service.

LETTER IS READ Counsel James R. Sullivan read an affidavit by C. A. Donohue, San Francisco, which said he was employed as manager of Margett's dog track at \$50 a week, paid by Townsend checks, and that Margett took a \$50 cut from the salary. Donohue estimated that Margett was getting \$1200 per month in commission from new members and contributors and that he was "making another profit" by absorbing rugs and furniture for prizes at Townsend Club bridge parties.

**Richmond Y
Elects At
Annual Meet**

SAN FRANCISCO, June 2.—UP—Several denials and a loud laugh were issued from the Townsend Club California State headquarters today in response to testimony offered at a Congressional investigation into the OARP.

A statement issued under the name of Edward J. Margett, State director, last reported in Los Angeles, denied charges of "juggling" Townsend funds made before the committee.

"I have a signed statement from C. A. Donohue, who made the charges admitting that his affidavits were untrue," Margett declared.

CLYDE PARKER was re-elected president of the Richmond YMCA at the annual dinner meeting held last night at the Hotel Carquinez.

Other officers named were Homer Patterson, vice president; David C. Gray, secretary; Walter H. Helms, treasurer; Clarence Bullwinkle, Charles Badcock, Fred Newsum, F. C. Shallenberger and Rev. Kenneth Wallace, directors.

Reports were made by President Parker, by Executive Secretary Fred Breen, by Kenneth Moe and by Charles Hahn. Growth in membership and expanding activities of the organization were reported.

The budget for the Y summer camp was approved during the session.

The program presented during the meeting included vocal solo by Mrs. Minnie Hedger and tumbling acts by a group of 16 junior high school boys.

**Rancher Fined In
San Pablo Court**

Found guilty by a jury in Justice J. E. Christensen's court in San Pablo last week, Jose Felton, Briones Valley rancher, was fined \$50 and was given a suspended sentence of 30 days in the county jail when he appeared in court yesterday morning.

Felton was found guilty of charges of disturbing the peace.

SPORT NEWS FOR FANS AND PLAYERS

National

FIVE PLAYERS ARE NAMED ON TENNIS TEAM

LONDON, June 2.—UP—Five veterans and one newcomer were named today to Britain's Wimbledon Cup tennis team which will seek to break America's string of five consecutive triumphs in the annual international series between the picked women of those countries.

The new player is Mary Hardwick, 22 year old blonde, who will replace Mrs. Phyllis Mudford-King. The other players are Dorothy Round, Kay Stammers, Freda James, Nancy Lyle and Evelyn Dearman—all of whom represented Britain last year when America triumphed four matches to three at Forest Hills.

The 1936 series will be played at Wimbledon June 12 and 13 with the Americans depending on four players to retain the International trophy for the sixth straight time. Britain has won four times and America nine since the series started in 1923 with a clean sweep by America at Forest Hills. The series consists of five singles and two doubles.

Stockton Grain Terminal Closed By Wage Dispute

STOCKTON, June 2.—UP—The busy port of Stockton, outlet for much of the bountiful agricultural produce of the San Joaquin valley, faced loss of a \$20,000 annual payroll tonight through closing of the port of Stockton grain terminal because of a wage dispute.

Operators of the terminal said its operations would be decentralized, with some grain being handled at Port Costa and most of the shipments being routed hereafter thru the Delta creek grand terminal in San Francisco.

The shutdown order came after wage negotiations between the terminal and members of the warehousemen's union collapsed. The men sought a wage scale of 75 cents an hour, to be effective after July 1, when an agreement giving them 60 cents an hour expires.

Court Postpones Action On Man's Citizenship Plea

SAN FRANCISCO, June 2.—UP—Federal Judge A. F. St. Sure today postponed indefinitely action on the application for citizenship by Frederick Jordan McConnell, Stanford University graduate, who is charged by the subversive activities committee of the American Legion with communistic tendencies.

Postponement was ordered by the court pending further investigation but it was said the case could not be heard now until July at the earliest.

McConnell, native of Australia, denied belonging to any political party, though he admitted he was secretary for the conference for United Action against the Criminal Syndicalism Law.

SHE LOST 20 POUNDS OF FAT

Feel full of pep and possess the slender form you crave if you can't if you listen to gossipers.

To take off excess fat go light on fatty meats, butter, cream and sugary sweets—eat more fruit and vegetables and take a half teaspoonful of Kruschen Salts in a glass of hot water every morning to eliminate excess waste.

Mrs. Elma Verille of Havre de Grace, Md., writes: "I took off 20 lbs.—my clothes fit me fine now. No drastic cathartics—no constipation—but blissful daily bowel action when you take your little daily dose of Kruschen."

Millions prefer it to any other dressing!

- Finer ingredients!
- A new type of recipe!
- Mixed a special, more palatable way!
- Marvelous flavor!

BRITISH HOPES RISE FOR U. S. POLO MATCHES

LONDON, June 2.—UP—English polo enthusiasts believe pony strength will decide the Westchester Cup matches between the United States and Great Britain to be played at Hurlingham this month.

In past matches the United States side has fielded the better ponies. British authorities believe Hurlingham will be slower than the Meadowbrook grounds in New York and therefore may reduce the edge held by American horses. To insure the maximum pony strength, British horses may be pooled.

Capt. M. P. Ansell, expected to be No. 1 on the British side, has been training British horses for several weeks. He is considered one of the finest horse masters in the British Army.

LINEUP NOT DEFINITE

Great Britain's team will be selected from Capt. Ansell, J. J. Hughes, E. H. Tyrell-Martin, Capt. H. P. Guinness, Capt. Sanger and Capt. Prior Palmer. The most likely side appears to be composed of Ansell, Hughes, Tyrell-Martin and Guinness. Guinness with a challenging leg team, will play back, with Hughes and Tyrell-Martin ahead of him.

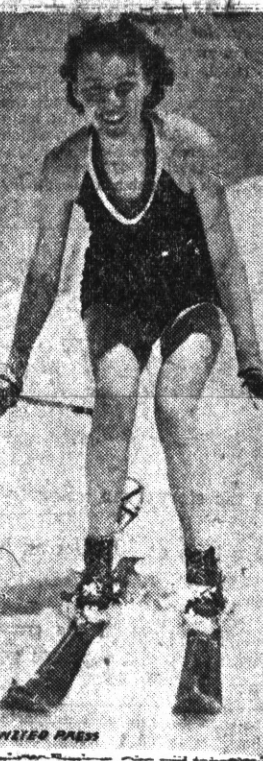

The British side will have a total handicap of 28 goals compared to a 31 for the United States if Eric Pedley, California, is included in the four. Pedley has a seven goal handicap, while other Americans selected to defend the Westchester Cup each have an eight goal handicap.

Woman Suicide Discovered In Gas-Filled Car

PLACERVILLE, June 2.—UP—Mrs. M. W. Reeder, 23, formerly of Stockton, was found dead in her closed car near here today.

Sheriff George Smith said the

Ready

DELORES ENEBOW, who will take part in the winter sports program that will be held at Mt. Hood, Ore., as part of the annual Portland Rose Festival, June 14.

woman had been dead between 20 and 40 hours.

A hose connected with the exhaust pipe and fermenting inside the car, indicated possible asphyxiation. Coroner A. J. Grell discovered a small patch of blood on the cushion behind the young woman's head, but there were no bruises on the body.

Her husband, M. W. Reeder, an automobile mechanic, said he had not seen his wife since late Sunday night.

JOE JINKS

ZEROLENES IN VICTORY OVER STANAVOS NINE

The Zerolenes last night nosed out the Stanavos team in the Standard Oil Twilight League by a score of 3 to 1 at First Street field.

Vigre was on the mound for the losers and he allowed only six hits and struck out three men. Kerston, the winning pitcher, held the Stanavos to four hits and struck out three.

Gonsalves was heavy stick man for the winners with two out of four. Barker got two for three and E. Johnson got two for two for the losers.

The winners scored one in the first inning when Gonsalves got a hit and came home on Williams' single.

Another run came in the fourth inning when Baldwin was safe on a fielder's choice and came home on Adams' hit. The last run crossed the plate in the sixth inning after Baldwin had walked and Bartoli had crashed out a long double.

The losers scored one in the sixth inning. Barker was safe on Williams' error and E. Johnson brought him home with a double.

Santa Fe Buys Terminal Site In San Francisco

SAN FRANCISCO, June 2.—UP—The Santa Fe railway, through J. R. Hayden, assistant traffic manager, today purchased a terminal site in San Francisco and indicated it plans abandonment of its present joint arrangement with the Southern Pacific company for ferrying through passengers across San Francisco Bay.

Hayden announced purchase of the Argonaut hotel historic landmark at Fourth street and Pioneer place in downtown San Francisco. The structure, home of the Argonaut pioneer society of California, will be razed and a bus and rail terminal will be constructed for the Santa Fe system.

The Santa Fe and Southern Pacific recently have been opponents in a State Railroad Commission hearing in which Santa Fe is seeking permission to establish a coordinated train and bus system between San Francisco and Los Angeles and in the San Joaquin valley.

YANKEES ARE DEFEATED BY CHICAGO SOX

NEW YORK, June 2.—UP—Jimmy Dykes' Chicago White Sox outslugged the New York Yankees, American League leaders and came from behind to score an 11-9 triumph today.

Rip Radcliffe batted in several runs with two homers and a single. Manager Dykes, Zeke Bonura and Pitcher Clint Brown, also cracked out three hits each to stop the Yankees' winning streak after five straight victories.

The second place Boston Red Sox shaved the Yankees' lead to three and a half games by pounding out a 14-6 victory over the Cleveland Indians.

Harry Kelly walked Manager Mickey Cochrane to force the winning run home in the eighth inning in the Detroit Tigers' 5 to 4 decision over the Philadelphia Athletics.

Washington beat the St. Louis Browns 15 to 11 in a slugfest contest.

In the National League, the lead-contest between the second place New York Giants and the St. Louis Cardinals defeated the Brooklyn Dodgers, 5 to 4. Chicago Cubs was rained out.

The major leagues' first night game of the season was at Cincinnati between the Reds and the Philadelphia Phillies.

MR. ROOSEVELT HITS DECISION ON WAGE LAWS

WASHINGTON, June 2.—UP—President Roosevelt today analyzed the Supreme Court's decision invalidating the New York minimum wage law as helping create a "no man's land" where neither state nor federal government may exercise authority over labor conditions. It was the first critical cognizance of the court's series of far-reaching decisions during recent months that the chief executive has taken since a year ago when he described the tribunal's NRA decision as marking back to "horse and buggy days."

POLITICAL DEVELOPMENT

Coupled with developments on Capitol Hill, where the court's decision likewise was denounced, the President's words were foreseen as possibly foreshadowing political developments during the coming campaign which may affect the court or its interpretations of the Constitution.

Discussion at the Capitol flared in remarks by Representative Hamilton Fish, Republican, New York, sponsor of the candidacy of Senator William E. Borah, Republican, Idaho, for the Republican presidential nomination.

WON VOTES

Fish charged that the New York law decision won "a million votes for the Democratic party" and told the House he would sponsor a constitutional amendment plank in the Republican platform at the party's convention next week.

Compared to his remarks about the NRA decision, the President's comment at his press conference today was mild but it was considered more significant, uttered as it was on the eve of the major party conventions.

The President asserted that the court's decisions were shaping the point where there seemed to be an area where state and federal governments are equally powerless to act to solve broad economic problems.

Death On Ship Will Be Probed

SAN FRANCISCO, June 2.—UP—An inquiry into the death of Arthur E. Ferns, 46, San Francisco World War veteran who died aboard ship in the Canal Zone, was ordered by Coroner T. B. W. Leland.

Ferns had financed the trip by bonus loan money. Mrs. Ferns charged the veteran had died after treatment by a ship's surgeon for a mild illness, and requested an autopsy.

Warns Against Communism

Condemning State interference with religion in Russia and Germany, the Pontiff said Communism threatened the whole structure of civilization.

EL CERRITO NEWS

FAIRMONT PTA HAS ITS FINAL MEETING

The final meeting of Fairmont P. T. A. was held yesterday with Mrs. Jack Crique presiding. The membership chairman, Mrs. Frank Garey reported 168 active members at present.

Mrs. Mary Fiedler, Camp Fire Girls executive of Berkeley, gave a most interesting discourse upon the subject of Campfire work, asked the unit to sponsor a group here with Miss Frances Stark as guardian which it was unanimously voted to do. The Camp Fire work, according to Mrs. Fiedler is to prepare the girls for a useful and happy life. The work, she said was started 25 years ago in this country in the State of New York and has now spread all over the world. It aids the girls Mrs. Fiedler declared to "adapt themselves happily to life" and as these are the girls who will eventually "mould citizenship in this country" this is a worthy aim.

An interesting part of the program was that put on by children of the school explaining their particular hobbies, and demonstrating

them before the audience. First came Dorothy Staley who made a talk on hobbies in general. She was followed by Loraine Gilmore, whose hobby was sewing and embroidery and she displayed lovely pieces of her handwork. Marian Lewis came next. She collects postage stamps and has them from every country in the world. Her display was most interesting.

Louise Campbell showed her coin collection and spoke of its history and the interest it holds for her. She was followed by Louis Fara, also a coin collector. Louis accompanied his parents to Europe recently and told of the difference in value of the coins of several nations as compared with those of America.

Victor Vadon had a large collection of matches in their tiny boxes on display and spoke briefly of this hobby. Betty Jean Alvarez brought her collection of samples and a very interesting hobby this was. Barbara Collins had a neat and interesting display of her hobby which is postmarks. Her display included postmarks from many na-

tions and she chose this hobby, she said, because it was different from the collecting of postage stamps and like hobbies.

Last came small Garry Smith with a collection of rocks gathered in various states and each named by the collector, one the "white marble" because to Garry's fancy it resembled that delectable confection, another was "the blue diamond" and each one he had asked his daddy to "chisel out" and Garry said, "so he did."

A piano and cello duet by Shirley Baker and Ruth Durbin closed the program.

Interesting reports on the State convention at San Jose were made by Mrs. J. L. Holler and Mrs. Frank Garey and an announcement was made of a dessert whist to be held June 23 at the residence of Mrs. O. A. Nelson, 5708 Panama avenue. Dessert will be served at 1:30, followed by whist games.

OFFICERS NAMED BY COMMUNITY CHURCH

The official board of the Community M. E. Church elected new officers to serve until June 1937 at a meeting at the church Monday evening. Those who will serve on the board during the coming year are Rev. R. Marvin Stuart, president; W. E. Allen, vice president; Lloyd McCausland, secretary and Miss Gertrude Mitchell financial secretary.

EPWORTH LEAGUE TO HAVE DINNER MEET

On Friday evening of this week the Intermediate Epworth League will hold a banquet in the social room at Community Church. This affair is to be an annual event. Friday evening's speaker will be Paul Campbell, field secretary of the California Conference of Epworth Leagues. There will be special music, readings and other interesting numbers on a program being prepared by Mrs. R. Marvin Stuart. Rev. Stuart will leave next Tuesday morning for the annual California Conference to be held this year at Stockton at the College of the Pacific from June 8 to June 15. Bishop James C. Baker will preside.

LEGION AUXILIARY TO HAVE WHIST PARTY

There will be a whist party at Memorial hall this afternoon at two o'clock under the auspices of the Auxiliary of the American Legion. Mrs. Lucy Redding will act as hostess this afternoon and at each of the Wednesday afternoon whist parties during this month.

TWO PLAYS WILL BE GIVEN BY DRAMA GLASS

The drama class of Fairmont Parent Teacher Association under the direction of Ralph Cassero will present two plays at the Fairmont auditorium on the evening of June 12. The plays are farces entitled "The Flying Grandmother" and "The Hooded Hinda." The casts are as follows: "THE FLYING GRANDMOTHER" The Flying Grandmother..... Mrs. Don Nichols Marion..... Mrs. H. S. Prior Cynthia..... Mrs. E. Smith Elizabeth..... Mrs. A. R. McIntyre Susan..... Mrs. E. L. Forrester "THE HOODED HIND" Miss Finch..... Mrs. J. F. Garey Mary..... Mrs. J. L. Holler Rose..... Mrs. Al Zahnhiser Ann..... Mrs. H. S. Prior Violet..... Mrs. E. L. Forrester

COURT TOLD OF MURDER BY LEGION

DETROIT, June 2.—UP—Bullets from the gun of a Black Legion executioner cut short the cry of innocence on the lips of a victim of the hooded order. It was sworn in court today.

Charles Poole, for whose murder 13 members of the secret organization were arraigned in court, never had a chance to defend himself against charges that he beat his wife just before she gave birth to a daughter, the testimony showed.

NO FACTS SHOWN

But the most damning piece of testimony against the 13 men who sat against the courtroom wall, linked by handcuffs, was that they committed this crime on hearsay evidence. None of them knew for a fact, it appeared, that Poole had beaten his wife; they got the information from somebody who heard "somebody else say so."

The purpose of today's session in the big courtroom with its marble pillars was to determine whether there was sufficient evidence to try the Black Legion members on charges of murder and kidnapping.

WOMAN CALLED

It was the death of Poole which revealed to authorities that the Black Legion—an offshoot of the Ku Klux Klan—existed in Detroit and had spread over several other Midwest and Southern states.

In an attempt to prove that the Black Legion killed Poole without trying to investigate the truth or falsity of the charges against him, County Prosecutor Duncan C. McCrea brought to the witness chair a nervous woman in a blue suit and red hat. Her name is Mrs. Ruby Lane. Three weeks before Poole was killed, she said, she was in the home of Hershel Gill, one of the defendants, and in walked Harvey Davis, a "colonel" of the Black Legion.

CONFESSIONS TOLD

"I happened to say," Mrs. Lane testified, "that Mrs. Owen Rushing told me that Charles Poole and that Charlie had hit his wife, Harvey Davis said 'a man that would do a thing like that ought to be taken out and beat up.'"

To the witness chair then came Detective Sergeant Jack Harvill, who arrested Davis, Gill and the other Black Legionnaires. He testified concerning confessions the Black Legion members had made to him.

Jailed Youth Is Injured In Fall From Bunk

OAKLAND, June 2.—UP—Physicians at Alameda county emergency hospital tonight fought to save the life of Phillip Loring, 19 year old San Francisco burglar suspect who suffered a fractured skull when he fell from his bunk in the Oakland jail Sunday.

Loring's condition was described as "very serious" at the hospital, where he has undergone two operations.

Bobble..... Mrs. A. R. McIntyre ITEMS OF LOCAL AND PERSONAL INTEREST Mr. and Mrs. Herman Cordrey and little daughter Sally Ann of San Francisco were the holiday guests of Mr. and Mrs. E. L. Crane on Everett street.

Phil Garey, young son of Mr. and Mrs. Frank Garey of Everett street, accompanied his grandmother Mrs. B. L. Wilmer of Oakland to Yuba City last week for a few days visit with his aunt, Mrs. Jess Whitlow.

Republicans Gathering At Cleveland For Convention

(Continued from page 1) making arrangements here and he has been invited.

CITY IS READY

He revealed also that official plans for a notification ceremony in Cleveland stadium have been dropped but that the successful candidate will be free to come here to address the convention.

The convention city was blooming tonight with bunting and welcome flags. Presidential candidates were present by proxy with their managers established in hotel headquarters. First cheers sounded in the Landon camp when Connecticut dispatches reported J. Henry Roraback, Old Guard national committeeman, headed for the Kansas bandwagon. Roraback was quoted by the Hartford, Conn., Courant, as saying that the state's 19 delegates would vote for Landon.

Some persons interpreted the Roraback statement as the beginning of a big eastern break toward Landon which would assure his nomination in the early ballots. A test of his strength will begin tomorrow when the national committee begins hearing contests of 57 of the 1001 delegate seats. Many of these contests are straightaway disputes whether uninstructed delegates shall be given seats in preference to delegates pledged to Landon or favorable to him.

Trial Dates For Two Auto Crash Actions Are Set

MARTINEZ, June 2.—Trial dates for two automobile damage suits, in which total judgement of \$55,000 is asked, today had been set by Superior Judge Thomas D. Johnston. Both cases will be tried before juries.

June 23 is the time for trial of a \$40,000 injury suit filed by John Herbert Payne, through his guardian, Catherine Payne, against Wilfred R. Yates and the Bayle Lacoste Company.

This suit charges that on March 5, 1936, John Payne, son of Mrs. Catherine Payne, had both thigh bones broken when he was hit by a car at Bissell avenue and Eighth street, Richmond. Attorney T. M. Carlson represents the plaintiff.

The second action, which is for \$25,000, will be tried on July 7. Loretta Robinson is plaintiff, suing Richard Gottardi, and G. M. Bateman for the death of her mother, Mary Rendell.

She asserts that on February 11, 1936, her mother was hit by a car near the intersection of Macdonald avenue and Twenty-second street Richmond, receiving injuries from which she died March 17.

Attorney F. E. Kilpatrick of Oakland represents the plaintiff.

DISSEMINATION FLARES

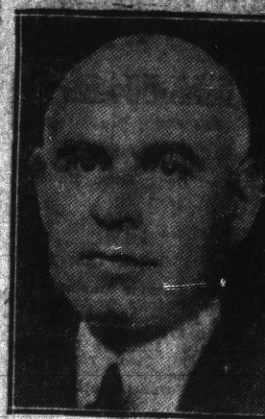

SHANGHAI, Wed., June 2.—UP—Dissemination in the Kuomintang province because of the conciliatory attitude of the Nanking government toward the Japanese army, flared into the open today when the semi-independent Southwest Political Council in Canton published a manifesto urging General Chiang Kai-Shek and his associates in the Central China regime to adopt a "stronger policy" toward the Japanese militarists.

emergency operations. He was found unconscious on the floor of his cell by guards making a routine inspection of the jail block.

The youth was arrested last month when police found articles taken in an apartment house robbery in his possession.

READ THE LATEST WORLD NEWS IN THE RECORD-HERALD

Not Again

GOVERNOR H. LEHMAN OF NEW YORK, who announced with dramatic suddenness that he would not be a candidate for the governorship a third time.

SANTA ROSA, June 2.—UP—A state-wide search was started here today for three wandering fortune tellers, who are charged in felony warrants with defrauding an aged woman of \$3,100 while her husband was dying.

The woman, Mrs. Lenora Maynard, 67, told police of having placed the money under a designated rock on several occasions and being told that to return on June 15 and she would find it had increased to \$10,000.

She followed the instructions, she said, because she felt if she had that much money she could provide better care for her dying husband, Charles. When she returned on the designated date, however, her money was gone and so were the fortune tellers.

The alleged fraud was discovered

YOUNG GIRL IS GIVEN PRIZE FOR SCULPTURE

SAN FRANCISCO, June 2.—UP—Miss Helen Phillips, 23 year old Fresno girl who never has been outside California, was informed today that her sculptor's husband and chisel had opened the road to a years' travel in Europe.

She won the first award of the Phelan traveling scholarship with a prize of \$2,000 for a year of study abroad. The prize was for her work of the past year, especially her stone figure called "Woman."

Announcement of the award was made by the San Francisco Art Association. The award was made possible by the will of the late United States Senator James D. Phelan, noted art patron.

Miss Phillips will include in her itinerary Mexico, France, Italy and the Adriatic and Mediterranean, stopping at famous art galleries and schools to learn from the masters and study their handiwork. "To realize my ambitions to travel and to study is a prospect I can find words to describe," the girl said, "but I am a young sculptor."

"Excited? It's much more than that. It's swept me off my feet." The figure "Woman" won first prize at an Art Association exhibition. Other of her works which have attracted attention include a crucifix she made for St. Joseph's church in Sacramento and two heads exhibited at the San Francisco museum of art and the Sacramento Architectural Show. Miss Phillips has studied for the past three years under Earl Stackpole, prominent sculptor. She will begin her trip late in the summer.

by Mrs. Maynard's son-in-law, J. Fred Adams, San Francisco, who checked over Maynard's estate. He swore out the warrants with Sonoma county officials.

YOUR GOOD HEALTH

Lack of Bone-Building Materials in Body Leads To Nerve Ailments

By CLAUD NORTH CHRISMAN, M.D.
NEURITIS is inflammation of the nerves, but the term is applied to many conditions that are not true inflammation. They are more of an irritation which causes a cramping and pain in the nerves and muscles controlled by them.

Mrs. J. F. Z., of Oklahoma, is a hard-working farm woman. She suffers from what she calls neuritis of the fingers and hands after hard work. The pains are particularly noticeable after milking cows. Last spring they became very bad after spading up a plot of ground one hundred feet square.

Mrs. Z. has an inward glow, low blood pressure and an enlarged gall bladder. While taking treatment for the gall bladder she was free from the neuritis. I do not know what kind of treatment she took, but it would seem reasonable to continue it.

Arthritis From Infection

The low blood pressure and enlarged gall bladder leads me to think she is suffering from some infection. She says it may affect the gall bladder and cause arthritis. Any chronic infection may lead to arthritis and this description indicates a deficiency of calcium and phosphorus.

Continued hard work uses up our supply of these bone-building materials. Unless we receive a large supply we are likely to suffer from muscular cramps, neuralgia, and various nerve irritations. The water in this Oklahoma district may be deficient in calcium and an absorbable form. The gall symptoms sound as if the glands of internal secretions are not working properly. A good long rest and a change of scenery would probably be very helpful, but this isn't possible.

Mrs. Z. should continue under her doctor's care for her gall condition. In addition, ten gr. of calcium lactate, three or four times a day and a tablespoonful of compound syrup of hypophosphites are distinctly indicated. An X-ray of her gall bladder would show any diseased condition or stones which might need attention.

Mrs. W. B. of Wisconsin, is suffering from another form of nerve irritation. She asks where my office is located so that she may come for consultation. Says she wants a doctor who will give her her trouble and talk to her as if she had some intelligence.

Fortunately or unfortunately, she is many hundreds of miles from my office. Also the purpose of these articles is not to advise them but to explain in as simple language as possible, the various indications of disease and its results and to induce readers to consult their physicians before it gains too firm a foothold.

Dangerous Operation

I am not real sure that Mrs. B. has always shown her intelligence. She was perfectly well, she says, until about eighteen months ago when she allowed an out-of-town doctor to operate on her for a fallen uterus. I wonder if she knew this doctor or if he was an advertising specialist. The operation for this condition usually consists in shortening the ligaments. When they are shortened, naturally there is a certain amount of pull on the surrounding tissues and nerves, which may be very annoying. The operation is justifiable only when the condition is causing trouble. If the patient is well and not suffering, it would better be left alone.

Mrs. B. suffers much from general nervous irritation, dizziness and headache and I judge considerable abdominal distress. All of this may be due to some adhesions following the operation. The only plausible advice is to have X-ray pictures taken to find if any obstruction exists. There is surely a home town physician who will do whatever is possible and give her the proper care.

Modes and Manners

QUESTION: "While dining with a gentleman of my acquaintance, he did something during the course of the meal which quite embarrassed me. He broke off a piece of bread and proceeded to mop up the gravy with it. It would not have been half as bad if he had used a knife and fork instead of his fingers. How do you feel about this?"

ANSWER: The French, who know the art of living, would have found nothing wrong with your friend's manners. If he had left the gravy on his plate in polite American fashion, they might have criticized him for his undeveloped food tastes. For gravy, as everyone who has tried the method can tell you, can be delicious.

In cosmopolitan circles your friend's table etiquette would likely have passed unnoticed. Every nation, not to mention the individuals who make it up, has its own table tricks. So what is considered good form in Italy might be "out" in some circles in England.

Profiles For Today

Kate Mayhew, 82, Still Active on Stage

By TALBOT LAKE

KATE MAYHEW was honored by the Broadway Association at its twenty-fifth anniversary May 10. At 82, she is the oldest actress on Broadway.

She first appeared on the Great White Way in 1873 at Niblo's Garden. Then the busy, noisy, traffic-laden street was a country highway bordered by small farms and cottages.

Born in 1854, she has been a trouper for 77 years. She has seen the footlights change from oil lamps to gas, and lastly to the dazzling electric lights of today.

She played her first role at the age of five when she took the part of "Minnie" in "The Van Winkle" with a Grafton, Ohio, company. She laughed when she recalled receiving \$1.50 a performance for playing the part of Little Eva in "Uncle Tom's Cabin" with the famous Lottie Crabtree.

Kate Mayhew is already known as the grand old lady of the theater, but that distinguished title does not mean that she is inactive. She is at work on her biography and is preparing to play a part in a radio skit.

She knew all the famous actors and actresses of the past intimately and acted in many plays with them. Edwin Booth, Edward Sothern, James O'Neill, Charlotte Cushman and many others have appeared with her.

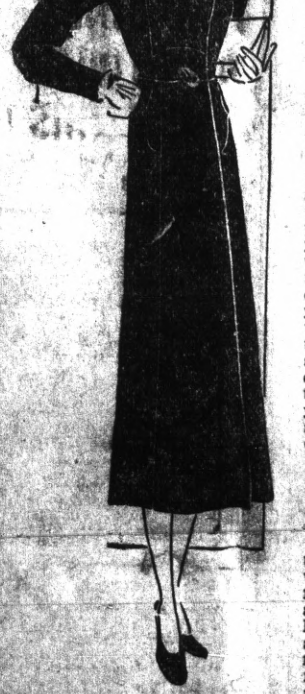

"The theater has grown richer with the years," she says. "It contains more artistic detail and the plays are better written than in the past."

Her most recent long run play in which she had a part was "The Farmer Takes a Wife." She lives with her sister in an apartment on the upper West Side in New York.

Copper Shades

Copper stockings shades are now appearing on the street and one sees them on smart and not so smart women. The further confirmation of colors earlier in the season, are now adding the frills to copper tones. The response to coppers has been better than expected as the eye becomes more accustomed to this fashion for bright colors. Apricot, is added and taking surprisingly well.

COLLARLESS COAT

Copyright, 1936, by Fairchild. At the right, a slender collarless coat from Schiaparelli adopts rather a high waistline, stressing it by means of widened shoulders and wide paneled yoke. The diagonal arrangement of amber buttons on a reddish brown tweed is attractive.

Match the Season By Gay Makeup

By JACQUELINE HUNT

JUNE is a gay young month! There is something in the air that inspires all those who want beauty to search out the things that will help them be their loveliest. June is an exacting month. The air is so pure and cool, the flowers so fresh and bright that your face and body must also be lovely.

Go shopping for beauty. There are dozens of new things for your bath to keep you cool and refreshed. There are new depilatories and deodorants to keep you dainty. And there are lovely, smart looking frocks that are as colorful and gay as the flowers themselves. There are new shades of cosmetics to make these frocks more becoming.

New make-up tricks are also in order. Heavy creams should be put away on a shelf until you need them again this fall. Buy new skin tonics and lotions, liquid cleansers and creams that are so fluffy and light they melt instantly on touching your skin.

Only the lightest of foundations is needed—unless you are afraid of freckles. The lightest dusting of fine face powder, cream rouge and eye make-up enough to give you a pleasing natural appearance.

Try this make-up base. Pour a little liquid powder lotion or take a little cream foundation in the palm of your hand and blend it with a few drops of your favorite skin tonic. Apply a quick, light film of this over your face, neck and shoulders if they are exposed by a short-sleeved frock. Apply cream rouge or use a liquid rouge blended with more tonic or foundation and smooth with the fingertips until evenly distributed.

Next dust with your ordinary face powder. You will feel cool like a lock fresh from a shower. You can wear this make-up into the sun, but it is not exactly sun-proof, so do not tempt fate too much. If you must guard against freckles and tanning you must use a real foundation cream or a cream specially compounded to keep the sun's rays from your skin.

If you want a rich tan, get a bottle of oil and use it liberally every time you expect to be out in the sun. Plain olive oil is also good since it will lubricate the skin and keep some of the moisture there so it won't burn as readily.

Consider your costumes when you set out to buy lipstick and eye make-up. If you have several dresses in pastel shades, get lipstick and eye make-up that are natural and delicate in coloring. There are lovely shades of terra cotta, champagne and rose that are subtle and enhancing. The exception to this rule is the white or the dark line suits the girls are wearing. With them use ruby or vermilion lips and have your fingernails match if you feel like it.

If you have never used it before, try a little pot of eye shadow and see how much more glamorous you will look. Apply oil or petroleum jelly to your eyelids, then blend in a little eye shadow, starting near the lashes and fading away toward the eyebrow.

Beauty Tips

QUESTION: "Please tell me if there is anything that can be done for hot perspiring hands. This is quite embarrassing when I am dancing. Thank you."

Your hot, perspiring hands are probably occasioned as much by self-consciousness and lack of poise as anything else. Look as prettily as you can when you go to your parties and remember that the boys with whom you dance probably feel just as shy as you do. Before you start out, wash your hands thoroughly with warm water and soap, rinse in cool water and dry. Then apply a liquid anti-perspirant or one of the new creams to the palms of your hands to check some of the moisture. If you do not have the anti-perspirant, then rub your palms with eau-de-Cologne or alcohol.

QUESTION: "I wonder if you could tell me how to stop my habit of biting my fingernails?"

ANSWER: Lots of will power, a checking up of your personal habits to see what causes nail-biting in the first place, and more pride in the appearance of your hands will help you stop biting them. If you are nervous and nail-biting is a manifestation of it, then try to get more rest and sleep, a moderate amount of quiet outdoor exercise and more nourishing food. It is especially important that you bring your weight up to normal if it isn't at present.

Capons and roasting chickens should be young and well dressed. In young chickens, the rear end of the breast bone and the pelvic bones are flexible, the breast round and plump.

This Veil Keeps the Hair In Place

Betty Furness, screen actress, solves the perplexing problem of the coiffure at formal occasions by wearing this smart veil on the drive to the dance. The lacy network over the entire head lends glamor and keeps the hair from flying in the night breezes. This particular model has tiny gold ornaments of various designs set upon it.

Speaking of Style

Capes Over Formal Garb For Comfort

By IRENE VAIL

New York—You are not likely to forget, yet perhaps I should remind you, that dining by daylight puts quite a different complexion on one's dinner clothes. That's why so many girls are taking to the idea of plain capes and velvet or velveteen swaggar coats.

The occasional cape of brilliant hued velvet is a distinct addition to one's summer wardrobe. It is a seasonal substitute for the fur cape and just the thing to throw over one's shoulders for that drive to the country club or wherever it is one is bound for a night's fun. It is a good bet because, without fur or feathers, it isn't fussy and can be worn over any old gown without danger of doing damage to its marvelous sleeve construction.

Another cape suitable for such purposes is the one that reveals rather than conceals the gown beneath. It is usually not or chiffon. Lovely though such capes are, they do lack a desirable warmth of the velvet cape. Some of the smartest are without any sort of collar and are held on by a band which may be looped or bowed at front.

If you provide yourself with a velvet cape, remember that the length it is is entirely your own affair. The more casual the cape the more service you will get out of it.

The snood promises to gain prestige because of its usefulness in keeping wayward locks in order. I am sure you will see many of them at formal affairs.

Short Cuts

Upon removing the cork from a bottle of glue for the first time, rub it with sand and it will not stick thereafter.

Immediately after emptying a dish or pot, drop a tablespoon of baking soda into it. Fill a cold dish with cold water, a hot dish with hot water, and let it stand for about ten minutes. The soda solution will loosen any charred pieces or pieces that stick and make the washing easier.

For the best results, linen should be evenly dampened before ironing and ironed dry. If put away slightly damp, linen loses its luster and wrinkles.

The juice of a lemon in a glass of warm water taken each morning upon rising will act as a bracer.

Young peas are a clear green. The pods also are green. Rough pods usually indicate old age. When pods are discolored, the peas will cook up tough as a rule.

Dishes for Today

Miss Wilson Shows a New Way to Prepare Broilers

By JUDITH WILSON

AFTER the epicurean dishes that we described in yesterday's column, we have some simpler recipes for you. But you will probably agree that these are very nearly as good and take less time to prepare. Here is a new way to prepare your spring broilers:

Broiled Stuffed Chicken
Place as many split 2-pound chickens as needed skin side down on a baking pan or oven-proof platter. Broil 15 minutes while you prepare the stuffing. Cook 1/4 pound sliced mushrooms and 1 tablespoon finely chopped onion in 3 tablespoons butter until tender. Add 1/4 cup boiled rice, salt and pepper to season, and 1/4 teaspoon mixed poultry seasoning. Add 1 beaten egg. Pack firmly into the chicken, then turn the skin side up and continue broiling about 20 minutes. Baste frequently with butter.

Clam-Tomato Juice Cocktail
Sauté Olives
Broiled Chicken with Stuffing
Potato Boats with Peas
Cantaloupe Halves with Fruit
Coffee

Maryland Fried Chicken
with Cream Gravy
Beaten Biscuits
Preserves
Pineapple-Tomato Aspic with Asparagus Tips—Mayonnaise
Lemon Filled Sponge Cake
Coffee

Potato Boats
Select rather large oval potatoes. Pare, cut off lengthwise slices and hollow out the centers. Drop into boiling, salted water and cook 10 minutes. Drain and dry. Fry until golden brown in deep hot fat. Drain thoroughly on absorbent paper and keep hot until ready to use. Fill with creamed peas or buttered green lima beans and sprinkle with paprika. Garnish with parsley. For luncheon fill the potato case with creamed left-over chicken or other meat.

Lemon Filled Sponge Cake
Blend 1 1/2 cups sugar, 4 tablespoons cornstarch and 1/2 teaspoon salt and stir into 2 cups boiling water. Cook and stir until thick and clear. Stir in the beaten yolks of 3 eggs and cook 2 minutes longer. Remove from the fire and add 2 teaspoons grated lemon rind and 1/2 cup lemon juice. Cool slightly and blend 1 1/2 cups of egg white stiff. Spread between the layers of freshly baked sponge cake. The remaining lemon filling can be used for tart shells or put into custard cups and covered with a meringue.

Bakish Crullers
Combine 1 cup milk and 1/2 cup water and heat to lukewarm. Add 3 tablespoons sugar, 2 tablespoons shortening, 2 teaspoons salt and 2 cakes compressed yeast, crumbled. Stir until yeast is dissolved. Add 2 cups flour, 1 beaten egg and beat thoroughly. Cover and let stand in a warm place until double in bulk. Pat out to 1/2 inch thickness on a floured board. Use a sharp knife to cut into pieces 1 1/2 inches square. Place on waxed paper, cover and let rise 25 minutes. Drop into hot deep fat and cook until golden brown. Drain on glazed paper. When cool, roll in granulated sugar, split down the center and insert a bit of stuffing made from 2 cups seeded raisins, 1/2 cup chopped walnuts, 1/2 cup strained honey, 1/2 cup water 1/4 teaspoon cloves and 1/2 teaspoon cinnamon, cooked together until very thick.

Clam-Tomato Juice
Mix 1 cup bottled clam juice, 1 cup tomato juice, 1/2 teaspoon Worcestershire sauce, a drop of tabasco sauce, salt, pepper and celery salt to taste. Chill thoroughly and serve in small glasses set into cracked ice. Olives, crisp celery curls, radish roses and salty crackers make nice accompaniments.

Charlotte de Pommes
Cut a loaf of stale sandwich bread into 1/4 inch slices. Cut each of these slices into pieces 1 1/2 inches wide and as long as your charlotte mold is deep. Cut other pieces into triangles that can be fitted together to completely cover the bottom of the mold. Butter the inside of the mold liberally and line it completely with pieces of bread dipped into melted butter. Cook together 3 pounds apples which have been pared and quartered, 1/2 pound sweet molasses, 1/2 pound of brown sugar, a pinch of nutmeg and a pinch of cloves. When the apples are soft, but still retain their shape, fill the mold with the apple mixture and bake in a fairly hot oven about 40 minutes.

Strawberry-Pineapple Conserve
Wash and hull 1 quart strawberries, drain 2 cups canned sour cherries from their juice and drain 2 cups pineapple tidbits. Slice 1 orange very thin without peeling and combine with the fruit. Weigh and add an equal amount of sugar. Cook slowly until the mixture is very thick when tested on a cold plate. Pour into hot glasses and seal with paraffin.

Pineapple Caramel
Melt 1/3 cup shortening in a saucepan, add 1 cup molasses and bring to a boil. Combine well 1/2 cup sour milk, 1 egg, well beaten and add the hot molasses mixture. Sift 2 cups flour with 1/2 teaspoon nutmeg, 1/2 teaspoon soda, 1/2 teaspoon salt, 1/2 teaspoon cinnamon and 2 teaspoons ginger and add to the first mixture. Beat thoroughly and pour into a rectangular baking pan in which 1/2 cup brown sugar has been melted and stir of pineapple have been arranged in rows. You will need 1 can pineapple. Cut the cake into squares and serve with whipped cream.

MODERN WOMEN

Women Who Enjoy a Social Life Should Not Marry Traveling Men

By MARIAN MAYS MARTIN

THE vexing problem of the lonely wife comes up again. It occurs to me that girls must be lacking in imagination because many of them marry traveling men and then are surprised to find themselves lonely.

I wonder what they expect? Unless a girl is sure that she can amuse herself during her husband's absence, she is foolish to marry a man who must be away a great part of the time, with it a waste of time and a dangerous habit.

It takes a self-sufficient person to live happily, or at least contentedly, by themselves. It's no life for the frivolous young wife who is a natural born excitement seeker. No matter how much she may care for a man, if he is a traveling man, the answer should be no. It takes a special kind of talent to make a success of a marriage which is, in a sense, a part-time ceremony.

You and Your Child

By JANE HERBERT GOWARD

BOBBY, 7, and his sister Nancy, 4, take their meals together. As they sit down to table they are a study in opposites. Nancy never complains "I don't want this" or "I don't like that." She is more apt to greet her dinner with enthusiasm, exclaiming, "Oh, boy, cream of celery soup!" or "Spaghetti!" Bobby, on the other hand, has poor appetite. Even when he happens to be fond of a dish he does not show it. He may eat more of it in the end, but he tackles it at his usual slow rate of speed and with the usual lack of zest. Nancy also eats slowly, but only to be playful and not for lack of interest in food.

From the mother's standpoint, however, both children present the same problem, namely, slowness. Repeated attempts to hurry them by cheering and nagging have failed, this mother decided to experiment. She recalled having read somewhere that when children dawdle over food it may be because they have nothing to look forward to. Here's dinner, they feel, and that's all there is. So why hurry?

That evening after serving Bobby, she asked him, "How would you like to read after supper from the new story book?" Bobby looked interested. "Honest, mom," he promised, "I'll take good care of it."

"I know you will, Bobby. As soon as you're through eating, you may have it." Bobby got to work in earnest. Nancy, however, put down her fork. "What can I do after?" Mother thought a minute. "You may write with a pencil." With sparkling eyes Nancy returned to her dinner. "Oh, boy, I can write!"

Both children may write, read or play in any way they choose following a meal, but neither one is apt to recall anything so joy-giving while plodding through dinner. That is why a reminder from mother is so effective. If a child can see ahead to something pleasant, he has an incentive for speed.

Break Up Foresome
No one can criticize a woman who is properly escorted to or from a party at the house of her friends. Whether there is any occasion for criticism or not, you may depend that there will be, especially if she has the same escort often.

It is unfortunate that the bachelor brother of your friend should be always on hand to accompany you. It is unfortunate for him, for most of all, it is not pleasant to be made a convenience. The role of pinch-hitter for an absent husband is not a healthy one for any young man. He had better get himself a girl of his own and allow you to join your friend and her husband without him.

It should not be necessary for you to be a hermit, but I do think you should consider your husband's feelings, and think of your own reputation. Your position is precarious and women are given to gossip.

I still insist that girls are curiously lacking in imaginative power or they would never place themselves in a position as yours. If they cannot be self-sufficient enough to live in their husband's absence without men dangling at their heels, they should see to it that they marry the stay-at-home type of man.

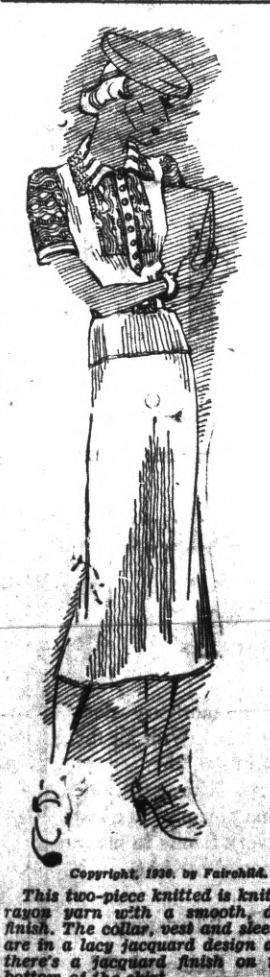

It's nothing short of folly to cause gossip or speculation. Take all this up with your husband at the first opportunity. He will suggest, I am sure, that you break up this foursome.

Budget Surprise
"Budget Surprise" is the appropriate name for the newest dessert delight for the thrifty housewife. When you can make a dessert delicious enough to serve your most important guests and at the same time use up those last-winter jams or jellies that have sugared on you, it's a secret worth knowing.

The following directions call for raspberry jam, but other preserves may be readily substituted. Just take 30 marshmallows, 1 cup raspberry jam, 1 tablespoonful glycerine, 2 tablespoonful lemon juice, 1/2 pint whipping cream. Cut the marshmallows in quarters and soften over hot water. Beat the raspberry jam and glycerine together well, and fold into the softened marshmallows.

Copyright, 1936, by Fairchild. This two-piece knitted is knit of rayon yarn with a smooth, dull finish. The collar, vest and sleeves are in a lacy jacquard design and there's a jacquard finish on the bottom of the skirt.

Don't Take Pills For Constipation

Ordinary pills taken to relieve constipation merely force a movement of the bowels without making the liver sluggish in its action. That's why the trouble returns in a day or two and you have to swallow more pills. What every constipated person needs is a good liver tonic. **Kraft's** is a good liver tonic. It cleanses the system of all food impurities and at the same time restores the liver to its normal state. It is a natural, safe, and effective remedy for constipation. It is a natural, safe, and effective remedy for constipation. It is a natural, safe, and effective remedy for constipation.

This delicious cheese food is DIGESTIBLE AS MILK ITSELF!

Hidden in Velveeta's richly mild Cheddar Cheese flavor are health-protective elements of many foods. It's wonderful for children. Serve Kraft Velveeta in sandwiches, in cooked dishes... often!

NOTICE TO BIDDERS

NOTICE IS HEREBY GIVEN that sealed bids or proposals will be received by the undersigned at his office in the City Hall, Richmond, California, up to the hour of 5 P. M. of Monday, June 3, 1936, and will be publicly opened, examined, and declared at the regular meeting of the City Council for said hour, for the exclusive privilege of collecting and disposing of all garbage and rubbish in the City of Richmond for the period of five (5) years commencing July 14, 1936.

Each said bid must be accompanied by a certified check payable to the City of Richmond in the sum of \$2,000.00 as a guarantee that the bidder if awarded the contract will enter into the same and furnish the required bond within ten days after the award. The successful bidder will be required to enter into a contract satisfactory to the Council and in accordance with the specifications on file in the office of the undersigned, from which office copies of said specifications and the bid forms may be obtained.

OLD PEOPLE find way to keep breath wholesome

Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant

Either because of stomach disturbances, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance. But now Science has found that the regular use of Listerine will often overcome offensive mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces.

This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gum surfaces. Halts fermentation and putrefaction, a major cause of odors, and then counteracts the odors themselves.

Try using Listerine every two or three days. See how much more wholesome it leaves your mouth. How it sweetens your breath. Listerine Pharmaceutical Co., St. Louis, Mo.

Don't offend others - Check halitosis with LISTERINE

CITY TO AID IN BIG RODEO AT OLD RANCH

Richmond is prepared to participate fully in the week-end rodeo at the P. L. Castro ranch on San Pablo Creek this week-end. It was announced through the Chamber of Commerce.

The rodeo will be under the direction of P. L. Castro, and will be held on his ranch property on San Pablo Creek, a few minutes drive from Richmond. It will open Saturday afternoon and continue Sunday afternoon, with a wild west celebration in Richmond Saturday morning and evening.

PARADE PLANNED

At 10 o'clock Saturday a spectacular parade will be held on Macdonald avenue from Sixth to Twenty-third streets, featuring by the presence of stage coaches, famous Texas long horn steers, fine horses and cowboys in full regalia. Local people will participate, and all of the animals used in the rodeo will take part, it was said by Castro.

A barbecue will be held on the rodeo grounds at 11:30 o'clock and the rodeo itself will start at 1, continuing during the afternoon. In the evening the Richmond merchants will sponsor a street dance to which the public is invited. Most of the merchants have decorated their windows with cowboy hats, saddles, lariats and other paraphernalia reminiscent of the old west.

ANNUAL EVENT

The site of the rodeo has an historic background. It is part of the 22,000 Castro grant presented to the grandfather of P. L. Castro by the King of Spain. In early California days it was the scene of the annual roundup, where cattle were gathered from all parts of the property to be driven to Ft. Isabel near Albany for shipment to the market. Plans call for making the rodeo an annual event.

Castro said it will be a combined wild west show and horse show at which not only outlaw horses and steers will be saddled and ridden, but blooded stock from stables of wealthy men in Nevada and California will be shown. Nearly all of the bucking horses will be from Contra Costa county, as will most of the riders. There will be no professional acts. All the men entered will be those engaged in the actual handling of horses and stock, it was said.

Several local organizations are offering prizes for winners in the rodeo and for the best showing made in the parade.

Rites Are Held For Cerrito Woman

Last rites were conducted yesterday from the Richmond Funeral Home for the late Mrs. Ellen Engelbrecht, of El Cerrito who died at her home in El Cerrito on Saturday.

Interment was in Sunset View cemetery.

100 Mile An Hour Speed Marvel In Successful Trip

(Continued from page 1)

hour was a new experience, and as I sat, all thrilled by being one of the favored few making the historic journey the thought came that this train, the City of San Francisco—built for speed, safety and comfort—foreshadowed a gigantic battle in the not distant future between land and air for supremacy.

For if a train can be built to glide along with the greatest of ease at 100 miles an hour, it is only a step to faster travel in the immediate future. The limit of speed that will be attained hereafter cannot be forecast but it will be limited only by the brains and ingenuity of man.

Even mention of the possibility of train speed of 100 miles an hour a few years ago would have been equivalent to receiving a one-way ticket to the booby hatch. This wonder-train is a sensation today but after its initial journey, like the Clipper air ships, it will be an accepted commonplace tomorrow.

WE HAVE AN EDGE

In one respect I believe those of us of more mature years have an advantage over the modern generation. The latter are born into a world of wonders which did not exist in our time. They naturally take everything for granted and therefore miss the feeling of awe that comes when the opportunity is given to contrast the old with the new and realize the great advancement that has been made.

ANNIHILATING TIME

But I started out to write about my trip on the San Francisco and not philosophize. Briefly stated I would say it was the zenith of my transportation experience. My personal reactions, however, are of little moment and fade into insignificance in comparison with the vista opened up by the journey.

Hereafter when the City of San Francisco goes on a regular schedule, Chicago will be the same distance in miles away from San Francisco as it has ever been, but in point of time it will be hours and hours nearer—20 to be exact. Time is the only thing we have in this world and the final story of success or failure is written according to what use we make of it.

To the business man the elimination of 20 hours between the two points means much in a commercial way. He cannot use the time a trip takes in gainful activities, and therefore the elimination of a day means much to him in the matter of cold dollars and cents. Even the pleasure journeyer is anxious to get to his destination, for we have gotten to the point in modern times that when we start for a place we want to get there in the least possible time and with the greatest degree of comfort. The San Francisco is a response to these demands and prayers.

IDEAL HOSTS

Before getting down to the drama of statistics regarding this miracle of railroading, there are a few more observations I would like to make. Along with 40 other newspapermen and magazine writers, including J. F. Galvin and Ruel S. Crose of the Independent and G. E. Milnes of the Record-Herald, the writer was a guest of the Southern Pacific.

the trip delightful. From the beginning to the end of a perfect day every possible courtesy was extended. When Sacramento was reached autos were waiting and a tour of points of interest in and around the city was taken. Then dinner was served in the Southern Pacific station dining room and by that time the hour had come to board the City of San Francisco, which is due, without any question to revolutionize rail travel in the immediate future. On the train more food was available without even asking for it.

At 4:45 the train left but one was not conscious it was in motion. It glided out of the station and before one was aware, the memorable journey was in progress. Speed varied with the character of the stretch over which the train was traveling, that is whether it was a straightaway or full of curves. At times the City of San Francisco was whizzing along at 102 miles an hour, at others 90 miles an hour and down to 80. After the Carquinez bridge was passed the speed was reduced considerably but on the outskirts of Richmond the Diesel engines indulged in some extra revolutions and we went whizzing through the city at 90 or better.

ACCORDED BIG WELCOME

The trip from Sacramento to the Oakland mole was one of triumphal progress. At every station, village and hamlet and cross-roads, people had gathered by the hundreds to watch this modern marvel of transportation on its initial trip to the coast. I can only speak with authority for the time I was on the train, but was told that through Nevada the City of San Francisco reeled off 115 miles an hour, and that is what I would call speed in any man's country.

MANY NEW FEATURES

If I could write all day and all night about this memorable day's experience—of the seats into which one sinks with a feeling of the last word in luxury; of the built-in radio that keeps one in touch with the entire world; of the ultra modern sleepers and drawingroom cars, the diner where the best of edibles is served; the indirect lighting and air-conditioning systems and a hundred other features, which space will not permit describing in detail. As one of my companions said: "It was the most wonderful trip I have ever taken and I would not have missed the occasion for a great many dollars."

ON EXHIBITION

The City of San Francisco is to be on exhibition in Alameda today and the suggestion is herewith given that it will be worth any person's time to go there and look over this train, which envisions what transportation will be generally within the near future. My only regret is that everyone who reads this article was not as fortunate as myself in being a passenger on the train. They missed a real thrill.

STREAMLINE FACTS

Herewith in condensed form are the facts concerning the City of San Francisco:

NUMBER OF CARS—Eleven, consisting of two power units, four Pullman sleeping cars, one coach, one combination coach-buffet, dining-lounge car, kitchen-dormitory, baggage car and mail-baggage-express car.

POWER PLANT—Two 16-cylinder, V-type Diesel engines, each of 1200 horsepower, which generate electricity for eight traction motors geared to the axles of the two power cars.

MAXIMUM SPEED—In excess of 100 miles an hour.

WIDTH OF CARS—Same as standard steam train.

LENGTH OF TRAIN—725 feet.

WEIGHT—About 500 tons, light

on rails; or about half as much as conventional train of same number of cars.

PASSENGER CAPACITY—170 divided 84 in sleeping cars and 86 in coaches.

MATERIALS USED IN CONSTRUCTION—Aluminum alloy for all cars except the two power units which are of steel.

COST—About \$1,000,000.

PAINT JOB—Autumn brown, top and bottom, with sides and round-nose of armor yellow. Pastel blue predominates in inside finish.

ROUTE TRAVELED—Overland Route, connecting San Francisco and Chicago, over rails of Southern Pacific, Union Pacific and Chicago & North Western. Will make five roundtrips each month.

SCHEDULE—30 3/4 hours, between terminals, cutting approximately 19 hours from fastest time now maintained on the run. Only one day and two nights consumed en route.

SPRINKLING—Complete, incorporating latest scientific discoveries in this field.

AIR-CONDITIONING—Complete, all windows being double-sealed and the gaps between cars being closed by two rubber diaphragms making the entire train practically an unbroken tubular section.

ARTICULATION—Complete, with exception that the two-car power unit may be detached from remainder of train, thus permitting the use of another power unit of the same type, or a conventional steam locomotive. (Articulation consists of joining cars on a common truck; that is, with rear of one car riding on same wheels as the front of the trailing car.)

PULLMAN ACCOMMODATIONS—Three sleeping cars of the section type, each with 11 sections; that is, 11 lower and 11 upper berths. Curtains are used in two of these cars to give privacy when the berths are made up. The third car is of the "semi-closed" type, sliding aluminum panels being used to close the sections, thus giving the effect of compartments. All upper berths have windows and are fitted with folding stairways which are left in position all night. One section in each car is of extra length to accommodate tall persons.

The fourth Pullman car is a so-called "room" car, with seven bedrooms, each with upper and lower berth, and two compartments, with upper and lower berths. The arrangement of the bedrooms is such that they may be used in pairs, as a large drawing room, by opening and folding back the connecting doors and partitions.

NAMES OF PULLMAN CARS—"Luna", "Oahu", "Hawaii" and "Honolulu", in honor of three islands and principal city of the Hawaiian group.

COACHES—The two coaches are at the rear of the train, the last car ending in a buffet-kitchen for serving meals and refreshments to coach passengers. Concealed tables, used either for meal service or writing, are recessed in the back of the seats. All seats in the day coaches are adjustable to several positions. The coach-buffet has a built-in radio, with connecting loud speaker in the second coach.

DINER-LOUNGE—The dining section, together with two cocktail tables at the diner end of the lounge seats 40 persons. The lounge, furnished with easy chairs and couches, includes a built-in radio, and library equipment.

WINDOWS—Extra wide, fitted with double shatter-proof glass.

INSULATION—All cars are completely insulated, both against outside atmospheric conditions and noise. Externally the train appears to be one long unit, the connections between cars being entirely con-

Wife Of Editor Will Be Buried

PORTLAND, Ore., June 2.—UP—Family funeral services for Mrs. Berthe Mellett, Washington, D. C., author and wife of Lowell Mellett, editor of the Washington Daily News will be held at 3 P. M., Wednesday in the chapel of Portland crematorium.

Mrs. Mellett died Monday after an illness of six days. She came here to visit her daughter, wife of President Dexter M. Keezer of Reed College.

POWER CARS—Each of the two units houses a 16-cylinder, V-type Diesel engine, developing 1200 horse power, which drives a generator supplying electric energy to eight traction motors geared to the axles of the power cars. Either or both engines may be used at any time. Small auxiliary engines in the power cars generate electricity for air-conditioning, lighting, water-heating and all other train uses. Control of the entire power plant centers in the cab, above and in front of the engine in the first power car.

SAFETY FEATURES—Low center of gravity, permitting safe and comfortable operation at high speed; fog-penetrating headlights, casting both horizontal and vertical beams; elevated cab, with dual controls and electric speed indicator; intercommunicating train telephone system connected to power cars; especially designed brakes insuring quick and easy deceleration; long-range siren; color of "rain" (brown and yellow) such as may be seen at great distances.

WHERE BUILT—At Pullman Standard Car Manufacturing Corporation's plant in Chicago.

OWNERSHIP—Train is owned and operated jointly by Southern Pacific, Union Pacific and Chicago and North Western railroads.

Many French Plants Closed By Big Strike

PARIS, June 2.—UP—On the eve of the new French government's assumption of power, workers in 76 plants, including factories working on huge government arms and munitions contracts, laid down their tools today and tied up nearly 20 per cent of France's heavy industry.

The strike problem was believed settled last Friday when 55,000 workers returned to their jobs after representatives and owners reached an agreement regarding increased wages and shorter hours. But without warning, the strike movement spread through a host of France again today. The number of men affected was not known, but it was estimated at least 80,000 were involved.

Workers at the Blériot Loire-Olivier and Cams seaplane factories laid down their tools, occupied the plants and refused to leave until owners satisfied their demands for higher wages and shorter work week.

The Lorraine Aviation and Motor works, busy on motors for government bombing planes, was forced to shut down.

Vierra Funeral Held Yesterday

Mrs. Vierra was said Tuesday at St. Paul's church for the late Mrs. Anna Clara Vierra, 48, who died Saturday night. Interment was in St. Joseph's cemetery. Pallbearers were Manuel Puhn, Gus Pignore, Manuel Semas, Edward Pacheco, Tony Lopez and George Brandon.

Official Guilty Of Disclosing Secrets

LONDON, June 2.—UP—J. H. Thomas, former Colonial Minister, today was formally declared guilty of revealing secrets of the last British budget, causing one of the most sensational financial scandals in England's history.

REBELS ARE IN CONTROL OF COUNTRY

(Continued from page 1)

which could cause damage to non-combatants to be suspended in Managua and things to remain as they are at the present moment until the parties in the action reach an agreement that satisfies both and especially maintains governmental dignity.

GUARD IN CONTROL

"In all this, the good offices of the diplomatic corps are accepted as a humanitarian act."

A statement issued by the national guard announced the guard was in virtual control of the entire republic, and in all towns and departments. Sacas' appointed authorities were replaced by supporters of General Somera. The statement intimated the surrender of Acosaco might terminate the rebellion and permit President Sacas "to give tranquil termination to his period of government." The president's term of office expires December 31.

The indictment against Thomas was handed down by a special tribunal of three justices appointed by the government to investigate an insurance market boom against increased income and tax taxes a few hours before the contents of the closely guarded budget were made public.
